

# How to use Colourstart if you're a client

Congratulations – you've chosen to use the  
Colourstart Screen and Test System.

It's really easy to get started, just follow these simple steps:

## SCREEN | TEST | SHARE

1

Click on the email invitation to join Colourstart Passport OR go to [app.colourstart.com](http://app.colourstart.com) for the Colourstart Passport website

2

You set up your own personal Colourstart Passport profile with a secure login

3

When you use Colourstart Passport for the first time, you answer 6 simple YES or NO questions to SCREEN whether it is OK for you to use the Colourstart Patch Test. You can answer the questions whenever it's convenient for you, for example, straight after creating your account, **but at least 7 days before** your colour appointment (so that there is enough time to send out the Colourstart Patch if you need it)

4

Depending on your answers, Colourstart Passport will instantly send you: EITHER: an amber tick, which means you should use the Colourstart Patch Test before your colour appointment, OR: a red cross, which means you should NOT use the Colourstart Patch Test or colour your hair. Please **share your result** with us, whatever it is, using your Passport page

# Committed to colour

5

If you can use the Colourstart Patch Test, just buy it from us, and we will send it to you

6

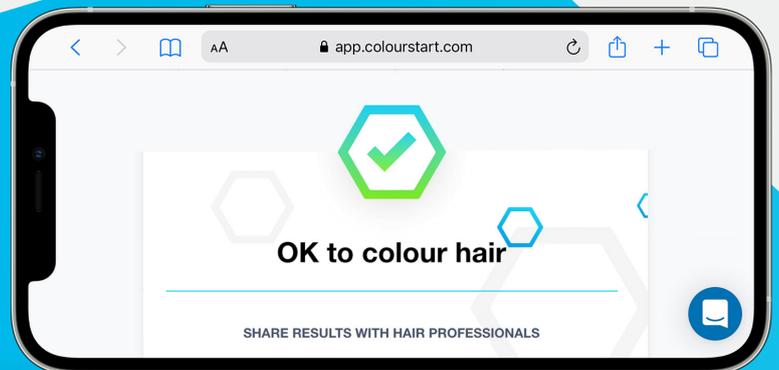

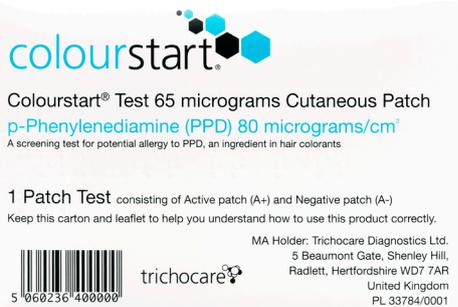

When you receive your Colourstart Patch Test **make a note of the batch number** and **watch the video below**. Log back in to your Colourstart Passport and **take a photo** of the Colourstart Patch Test on your arm. Follow the instructions on the Colourstart Passport carefully

Go to [colourstart.com/directions-for-use](https://colourstart.com/directions-for-use) to watch the video on how to use the Colourstart Patch Test. Please **TEST at least 5 days before** you'd like a colour appointment

7

If you are all clear to colour after testing, log back into your Colourstart Passport, confirm your result and let us know by selecting our details from the dropdown menu and then **SHARE** your result with us

**Before your next colour appointment** After you have tested once with the Colourstart Screen and Test System, just log back in to your Colourstart Passport **at least 7 days before** your next appointment. Repeat Step 3 - 'Screen' again. If nothing has changed, you will get a green tick reply and you need **NOT** test again, so just go to Step 7

Colourstart Test 65mcg Cutaneous patch. Contains p-phenylenediamine (PPD). A screening test for allergy to hair colour (PPD). Always read the label.
